Mainroad Maintenance Products LP

:: Salt

Mainroad Maintenance Products (MMP) is a leading supplier of road de-icing salt to municipalities, regional districts, airports, and private customers throughout British Columbia and Washington State. Through a long established relationship with Mitsubishi Canada, MMP is the exclusive distributor of Essa salt. The salt is imported from Mexico and considered to be the purest and most efficient de-icing sodium chloride product available (99.5%). Our salt meets the PNS standards and is suitable for provincial highway and municipal roads. MMP currently has distribution depots based in Richmond, Port Kells Langley, and Duke Point in Nanaimo. Mainroad Maintenance Products LP is COR certified by the BC Construction Safety Alliance.

:: EZ Street® Asphalt – road repair and paving solution

Mainroad Maintenance Products is the Canadian distributor for EZ Street® Cold Asphalt. EZ Street® Asphalt is a high performance polymer modified cold asphalt material specially designed to work permanently in situations where regular asphalts or traditional coldmix's fall short. EZ Street® works in all weather conditions and performs in temperatures from -18°C through to 38°C . EZ Street® works in water, requires no tack coat, does not stick to tires or shoes and will remain in stockpile for up to a year. EZ Street® is ideal for pavement patching in both winter or summer for potholes through to full pavement repairs as well as being a repair and surfacing material for water service and trench reinstatements. Once installed, EZ Street® is instantly ready for traffic. EZ Street significantly reduces long term maintenance costs—it is like hot mix in a bag with a long list of paving benefits. Visit www.ezstreetasphalt.ca to view

case studies and online demonstration videos.
