- The Mainroad Group provides products and services to build and maintain civil infrastructure.

##### Mainroad Vision

Our Vision, by 2017, is to be a 100% employee owned company recognized as a leader in providing safe and reliable maintenance, products and construction services for civil infrastructure works and commercial building projects, known as one of Canada's best companies to work for.

##### Mainroad Mission

1. We are a company that cares about the safety of our employees and everyone we serve.
2. We partner with our customers and provide cost effective solutions with a diverse range of quality products and services.
3. We are an ethical corporation that cares about the communities in which we live and work.
4. We provide superior results for our shareholders.

##### History

Mainroad Group was founded in 1988 as Mainroad Contracting when the provincial government privatized road and bridge maintenance services within British Columbia. A motivated group of former provincial employees banded together to pool their knowledge, skills, and resources to form what would become one of the most successful roadway maintenance companies in British Columbia. Mainroad is also unique within the industry as a 100% employee owned company.

Twenty five years later, through expansions, ventures, and acquisitions, the Mainroad Group celebrates a diversified portfolio of infrastructure businesses with operations throughout British Columbia and Alberta.
