

FOR IMMEDIATE RELEASE

G&E Contracting's new web presence reveals the company's growth.

Langley, BC, September 27, 2012 – The G&E crew announced that they have finished the build on a new website. | www.gecontracting.ca

G&E Contracting LP specializes in civil infrastructure, bridges, bulk and detail excavation, site preparation, underground utility installation, road works and structures. G&E Contracting has been servicing the construction industry since 1979. The company has established a successful reputation in Commercial, Residential, Institutional and Industrial Projects.

G&E's General Manager, Darren Ell, notes the new web build reveals the company's growth in British Columbia and Alberta markets. *"G&E has expanded its horizons and has started completing bridge construction projects as well as bridge rehabilitation. We have also expanded our area of work to include southern Alberta and the Lower Mainland and we are continuing to evaluate other areas to expand into. G&E is recognized as a business where there is great growth potential and all opportunities are being evaluated."*

G&E's Lower Mainland crew are currently working with Parks Canada in Lake Louise, Alberta. The sharp eyes of G&E Contracting crews overseen by Project Manager, Kevin Breti, led to an interesting find of artifacts in the hamlet of Lake Louise in Banff National Park. Full story is featured on the website's News page.

Gecontracting.ca offers a diverse menu of civil, mechanical, site services and structural project profiles and a toll free number serving British Columbia and Alberta customers.

About G&E Contracting LP and Mainroad Group:

G&E Contracting LP is a division of the Mainroad Group, a 100% employee-owned collection of companies specializing in infrastructure products and services. Mainroad was formed in 1988 and has successfully become one of BC's most diversified groups of civil infrastructure, maintenance and construction experts. We have extensive experience in diverse climates and environments across Western Canada. We help link communities, people and families by providing safe and reliable civil infrastructure.
