### **Mainroad secures first highway maintenance contract in Alberta**

Surrey, BC – Mainroad Chinook Contracting has secured its first operations and maintenance contract to provide highway maintenance services for the future Stoney Trail SE ring road in Calgary, Alberta.

The Southeast Stoney Trail (SEST) Project is a public-private partnership (P3) between the Alberta Government and Chinook Roads Partnership. The SEST Project is one of the largest single P3 highway infrastructure projects in Alberta's history and construction of the Stoney Trail SE ring road is anticipated to be completed in late 2013. Background information is available online at [www.sestproject.ca](http://www.sestproject.ca).

"SEST is Mainroad's first highway maintenance contract outside of British Columbia and our first engagement with the Government of Alberta," says David Ching, Vice President of Mainroad's Business Development. "This contract represents a spring board for venturing into other business opportunities in Alberta and elevates our P3 business portfolio. Our Mainroad Group is looking forward to working with the Alberta Government."

"We are pleased to have engaged Mainroad, a company rich in experience in the highway maintenance sector, for the Stoney Trail SE roadway," said Marc Devlin, President, Chinook Highway Operations Inc. "Our client, stakeholders and the traveling public will be well served through this partnership."

Mainroad Chinook Contracting (MCC) has been contracted by Chinook Highway Operations Inc. – a partnership between SNC-Lavalin Operations & Maintenance Inc. and Acciona Concessions Canada (2008) Inc. for a term of five years with an optional extension. The maintenance contract includes services such as road repair, snow-removal and lighting maintenance. Pre-operations are scheduled to commence April 2013 while maintenance operations is scheduled to begin October 2013.

#### ***About Mainroad Chinook Contracting & Mainroad Group***

Mainroad Chinook Contracting (MCC) is the first Mainroad Group operating company incorporated in Alberta. MCC is a division of the Mainroad Group, a 100% employee-owned collection of companies specializing in infrastructure products and services. Mainroad was formed in 1988 and has successfully become one of BC's most diversified groups of civil infrastructure, maintenance and construction experts. The Mainroad Group has extensive experience in diverse climates and infrastructure environments across Western Canada. We help link communities and families by providing safe and reliable civil infrastructure. For further information, visit [www.mainroad.ca](http://www.mainroad.ca).
