

**your roads – your team,
linking communities and families**

Headquartered in Surrey's Cloverdale community, "Mainroad Contracting" was established in 1988 when the Provincial government privatized road and bridge maintenance services within British Columbia. A motivated group of former provincial employees banded together to pool their knowledge, skills, and resources to form what would become one of the largest highway maintenance contractors in Western Canada with operations in British Columbia and Alberta. Today, Mainroad Group celebrates a diversified portfolio of businesses that provide the expertise to solve any infrastructure need.

- 100% EMPLOYEE OWNED ■ 1000+ EMPLOYEES ■ 19 OPERATING BUSINESSES
- OPERATING AT ISO 9001/ISO 14001/ISO 45001 AND COR CERTIFIED STANDARDS

Mainroad Vision

Our Vision, by 2025: "To be Canada's highway maintenance and infrastructure services contractor of choice, working with our partners to connect our communities today and in the future."

Mainroad currently holds four highway maintenance contracts with the Ministry of Transportation and Infrastructure in British Columbia, two highway maintenance contracts with Alberta Transportation and Economic Corridors, and two Public Private Partnerships (P3) contracts in Western Canada. Mainroad maintains major highways, bridges and other structures within their contracted service areas. Road maintenance operations range from snow removal, pothole repairs, and pavement marking, to bridge and tunnel patrol, electrical maintenance and traffic management. Mainroad's clients include municipalities, First Nations, airport authorities and private entities. www.mainroad.ca

AccuSource Communications Mainroad Group maintains its own 24-hour emergency response and communications centre, **AccuSource Communications**. The AccuSource team's mandate is to respond to and update the public and stakeholders on changing road conditions, hazards and incidents serving Western Canada operations with further expansion plans.

Cobra Electric has three operating companies based in BC delivering full-service electrical construction, maintenance, specialized services and engineering support within the Lower Mainland and Southern Interior. Cobra Electric clients include provincial, regional and municipal governments amongst many others. www.cobraelectric.com

Mainroad Transtronic Services LP is a leader in maintenance, installation and commissioning of new and existing electronics and electrical technologies. The company services many industries and depth ranges from installing underground cable to certification of fibre optic systems. The company maintains contracts with both public and private entities across British Columbia and is based in Surrey, British Columbia. www.mainroadtranstronic.ca

Mainroad Maintenance Products LP is one of the leading suppliers of road de-icing salt in British Columbia. Mainroad Maintenance Products supplies de-icing salt to maintenance contractors, municipalities, government agencies, and property managers throughout the BC South Coast and Vancouver Island. Mainroad Maintenance Products also holds the license to produce, sell and distribute EZ Street Premium Asphalt. EZ Street is an engineered, permanent pavement repair product that is ideal for use in potholes, utility cuts, small overlays and edge repairs. EZ Street is available across all parts of Canada. www.ezstreetasphalt.ca

G&E Contracting LP is a Vancouver Island based civil construction and excavation company specializing in a wide range of civil and mechanical infrastructure services. G&E has established a successful reputation in Municipal, Commercial, Institutional, and Industrial projects and has been servicing the construction industry since 1979. G&E is based in Langford, BC. www.gecontracting.ca

Raylec Power LP is a versatile electrical contractor specializing in construction, complex system installations and provides a wide range of maintenance services for the Ministry of Transportation & Infrastructure, municipalities, as well as commercial and industrial customers on Vancouver Island. Raylec Power has three locations including Nanaimo, Victoria, and Cumberland, BC. www.raylecpower.ca

Raylec Power (Alberta) LP is focused on the construction, repair and maintenance of roadway electrical installations and assets for Alberta Transportation and Economic Corridors, as well as commercial and industrial clients across the Alberta region. Raylec Power Alberta is based in Calgary, with a satellite location in Red Deer, Alberta. www.raylecalberta.ca

Salvador Ready Mix Concrete LP based in Cranbrook, British Columbia has led the way in providing high quality concrete and aggregate for all types of residential and industrial building and renovations projects. With on-site quality control and careful attention to detail, Salvador has built and maintained strong relationships with the East Kootenay community from homeowners to large developers. www.salvadorreadymix.com

SPR Traffic Services LP (SPR) specializes in a wide variety of construction and contracting services in addition to being a full-service traffic management provider, including vegetation control, site cleanup, parking lot maintenance, construction labour, asphalt crack sealing, and snow removal. SPR Traffic Services is based in Parksville with operations throughout Vancouver Island. www.sprtraffic.ca
